

MAPPING YOUR COMMUNITY

For Teachers Grades 4–12

June 15–19, 2009

9:00 a.m.–4:00 p.m.

Litzsinger Road Ecology Center

Meeet your curriculum goals while engaging your students in studies of their local community. Participants will develop a curriculum module to take back to school that uses a place-based approach to education and integrates use of geographic information system (GIS) software and other resources to support student inquiry. A school site license for the GIS software is provided to all participants.

There is no fee for this workshop. Two graduate credits are available for an additional fee.

Please contact Dr. Bob Coulter at bob@litzsinger.org if you have questions.

Mapping Your Community Registration Form
